### **Teledyne Awarded \$20 Million Contract to Support F-35 Program**

LEWISBURG, Tenn. – March 19, 2019 – Teledyne Advanced Electronic Solutions (AES), a business unit of Teledyne Technologies Incorporated (NYSE:TDY), was awarded a contract worth in excess of \$20 million for fiscal years 2019 through 2021 from Harris Corporation of Melbourne, Florida, to continue its support of the F-35 aircraft program.

Teledyne AES has supported the Lockheed Martin F-35 program since 2004. This latest competitive firm-fixed-price award is to develop and deliver Fiber Optic Quad Transceiver products in support of lots 13 and 14 of the F-35 program. The work will be performed at Teledyne AES' production facility located in Lewisburg, Tennessee.

Teledyne AES is a long-time contractor in support of various U.S. DoD programs. Harris recognized Teledyne AES as a contractor for Exceptional Quality in 2018 as Teledyne AES earned a 100% Product Quality Score. Earlier this year, Teledyne AES made a substantial capital investment in a technical refresh of two key equipment lines in its Lewisburg production facility. The capital investment has streamlined production, accelerated delivery schedules and improved overall quality control.

#### **About Teledyne Advanced Electronic Solutions**

Teledyne AES, a business unit of the Teledyne Defense Electronics group, provides agile electronic manufacturing services, microelectronics packaging, box-level assembly and other advanced manufacturing technology services for military, space, commercial, and other global markets.
